

The U-type platform scales are designed for easy weighing of pallets transported by forklifts and pallet trucks. The robust steel platform in U form is equipped with 4 OIML R60-certified C4-class load cells. With two wheels on one side and a carrying handle on the other, it offers a lightweight and easily transportable structure. The standard model is electrostatically coated, and a fully stainless-steel version is also available.

Optional Weighing Indicators

Features

Frame : 200 NPU

Load Cell : Kobastar SB 5Ton Load Cell

Weighing Indicator : ID550 Analog Output Weighing Indicator

Platform : 4 load cells with a U-frame structure

Coating : Electrostatic oven paint (Stainless Steel AISI304)

Durability : Resistant to overloading

Application : Suitable for industrial weighing applications

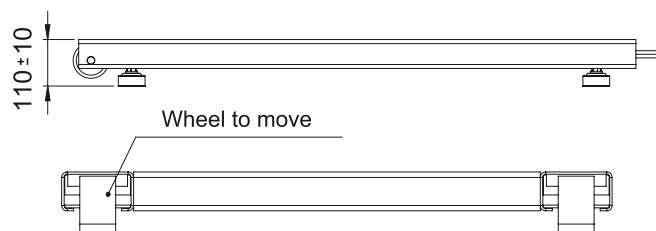

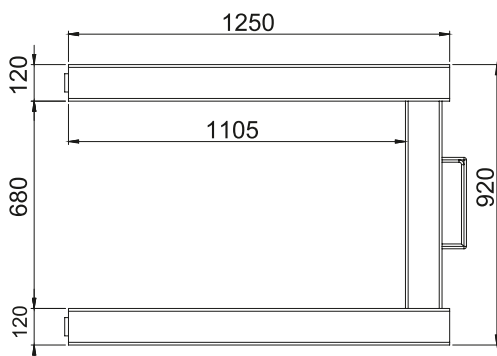

Accuracy : High precision with a 24-bit Delta-Sigma Analog/Digital Converter

Dimensions

Model	Capacity			Dimensions
U	U+4LC - 300/600 Kg x 0.1/0.2 Kg	U+4LC - 600/1500 Kg x 0.2/0.5 Kg	U+4LC - 1500/3000 Kg x 0.5/1 Kg	1250 x 920, 100 mm
